## ~ Java Backend Developer

Hello, I'm Gürkan. I started to my software developer career before highschool. Until this time I developed many projects in different platforms also i have chosen my path. I want to improve myself in java backend development.

### Experience

BULUT MD Software  
2020 July – 2021 March

During my internship, I took on tasks in real projects. I have worked in both frontend and backend. I actively took part in teamwork while connecting the frontend and backend project. I developed backend with Spring Boot and frontend with React JS.

### Education

Completed at 2019  
Edirne Yildirim Beyazit  
High School

.....

Continues 2019 - 2023  
Trakya University  
Computer Engineering

### Volunteer Work

UMAY ROCKET TEAM  
2019 Oct. - 2021 April

I worked in team of avionics and ground station. We used Arduino in our rocket and coded it with c language. Here I learned to be a good team player and project planning. I improved my communication skills and took responsibility.

IOT TRAKYA  
2019 Oct. - 2020 Dec.

I volunteered to teach Arduino and Robotics. We made robotic projects with our participant friends and completed the training. Thanks to this training, I learned how to prepare presentations effectively and improved my public speaking skills.

### Achievement

YAŞAM KAFESİ  
(Cage of Life)  
April 2019

With this project we designed after the Corlu Train Accident on 8 July 2018; In train journeys, people are not thrown out of the windows when the train overturns and possible loss of life is prevented. I developed the project with Arduino. I won the 3rd place in the competition organized by the Trakya Development Agency.

### Projects

Bir Hedefim Var  
(I Have a Goal)

With this project I helped to many students, especially myself, who are preparing for university exam. (Available on Google Play Store)

Acil Haber Verici  
(Emergency Bulk Message Sender)

With this project, I ensured that automatic messages are sent to the people you pre-determined in case of emergency disasters such as earthquakes. (Available on Google Play Store)
